NAPLAN PERFORMANCE CONTINUES TO GROW
Exceeding the national average in NAPLAN numeracy performance, Salesian College Chadstone continues to lead the way. Identified by the Australian Curriculum Assessment and Reporting Authority (ACARA), the college is positioned as one of only two Catholic schools in Victoria to achieve this.

OUR KEYS TO SUCCESS
Teaching Quality
We work tirelessly with staff and departmental teams to develop modern and effective practices that improve the craft of teaching.

Improved Learning Culture
We work to promote an environment where students take ownership of their education.

Program Impact
We work to target areas with the greatest impact. Literacy programs, such as our Reading Comprehension Program, improve responses to worded problems across the curriculum; in particular, Mathematics.

Using Data to Inform
We work with data, analysing it deeply to accurately inform our practice.

Specialised Programs
We work to inspire our boys. Initiatives such as the Biretta Program, promote excellence in all aspects of college life.

Documentation Review
We work to constantly develop. Learning teams regularly collaborate to create first class curriculum documentation.

Integrity
We work to ensure our results are a genuine representation of ability. NAPLAN coaching does not exist.
